The Question of Running Mates.

Hawaiian Legislation is Delayed by the Rush of Bills in

the House.

[Special Correspondence ] WASHINGTON, June 1.—The question apperment in the minds of collicians is who is to be running mate of Presiden McKiniey on the Republican ticket Scarcely a day passes that does not not the proposal of the name of the "favorite son" of some State and his prompt disavowal of any desire to enter the light it is a singular fact that, in nearly ev ery instance, the men who are seeking to put themselves forward have met no encouragement from the friends of the President, who rightfully enough should have the predominant voice in the pre-Probably the most persistent candidates Fortunate Climate of for the Vice Presidential nomination is Licutement Governor Timothy Woodruff of New York, who has been much rid-Leutemant Governor Timothy Woodran of New York, who has been much ridiculed because of his gorgeous raiment and especially his iridescent "wask.in" lie is a creature of the Platt machine of New York State, but a young man of some attainments and no small fortune, he area, concaved the ados of booming himser for the Vice Presidency when the tery popular candionary of Rosevett, Governor of New York and Colonel of the Rough Riders at santago, was mipped in the bad by his emphanic refusal to allow his hame to be considered for the place. Rosevett would have constructed much strength to the teker, for he is known as a man of great personal courses not only on the helo of olicities had in his office as Governor of New York and previously when acting as Assistant Secretary of the Naxy. Rosevett would "run dike wild the" in the West, where his aggressiveness and streamous activity have won for him greater nameration than in the finity restful East. But he has so insolutely set his disapproval upon an efforts to force nim upon the national taked that the friends of the Administration have greatisally shandoned all hope of toducting him to change his mind.

Just at this moment probably the most promisity and face for the Vice Presidential nomination at Philadelpi in is C. # The —est are Busy: call again." NOTABLE WEDDINGS.

Two Ceremonias at St. Andrews on Tuesday. Two weddings of note took place at St. Andrew's Cathedral yesterday. The

Hart-Elston puptials were celebrated at noon and the Dekum-Meyers marriage was at 2 o'clock. The wedding of Miss Mabel Hart, daughter of Judge Charles Frederick Hart and Mr. Charles Allen Elston, was one of the most fashionable of the sea-

son and society was out to witness it and utter the best of good wishes to the bride and groom. The fine old cathedral never looked more beautiful. At either side of the chancel rall great ranks of potted

plants and palms had been placed, and an arch of ivy dotted and picked out with white marguerites spanned the nave just above, giving a very beautiful effect. Under this arch the bridal party stood when the ceremony took piace. Sharp as the noon hour struck the

vested choir of the Cathedral began softly to chant the wedding march from Lohengrin, and the large congregation rose to receive the wedding party. From the side entrance came the maid of honor. Miss Juliette King, and the bridesmaids, Miss Mary R ce. Miss Fula Elston, and Miss Gretchen Kopke, accompanied by the ushers Arthur Mackintosh, C. A. Jacox and R. E. Mist. They passed down the main aisle and met the bride as she entered the shurch, upon the arm of her father. Here the bridal procession formed and moved slowly to the chancel rail, where the groom and his best man, George Fuller, awaited them together with Rev. Alexander Mackintosh, who was o perform the ceremony.

During the ceremony Harold Mottin the played the intermezzo from Cavalleria Rusticana" upon the cello, Wray Taylor playing the accompani-ment upon the organ. While the ceremony in the chancel was being perormed the choir sang the 138th Psalm and while the wedding party were in the vestry signing the register a special wedding march was played. Mendelsohn's wedding march was given as the newly wedded pair left the church, After the ceremonies at the Cathedral

he bridal party went to the residence of the bride's father Judge Hart at Walkiki and a wedding luncheon was served. Afterwards there was a largely attended reception. Mr. and Mrs. Elston will leave to-

morrow on the Australia for the Coast, They will visit Mr. Elston's old home at Berkeley and tour California this summer returning in the fall to take up their residence in Honolulu.

At 2 o'clock yesterday afternoon St. Andrew's Cathedral was the scene of a very pretty wedding, when Miss Clara-Dekum became the wife of Jackson R. Myers, manager of the Hamon Plantation on the Island of Maul. The affair was a very quiet one and only intimate friends and relatives of the bride and groom were present.

Mr. Myers was accompanied by W. Baldwin as best man, and Miss Kate Kelley acted as maid of honor. ushers were Dr. J. Watt and M. F.

The bride entered the church upon the arm of her brother Edward Dekum and the bridal party advanced to the chancel while Wray Taylor at the ormarch. The ceremony was performed by Rev. Alexander Mackintosh and the bride was given away by her brother.

After the ceremonies at the church was a reception at the home of Mrs. Freeth on Emma street. The house was exquisitely decorated with plants and ferns and cut flowers and a large number of the friends of Mr. and Mrs Myers gathered there to meet and congratulate them

At 5 o'clock Mr. and Mrs. Myers sailed on the Claudine for their future home in Maut. The dock was crowded with their friends and as the boat pullof the party adorned an oar in one of the life boats with a pair of white slippers and a let and this ensign was wavirg saily in the breeze as the Clau-
